To Whom It May Concern,

I am privileged to write in support of my student, Matthew Hayes. He has been a student in my Computer Programming class at the Jackson Area Career Center over the last two years, during which time I have witnessed his positive growth and development.

Matthew has been a key component to the success of my class. He is always respectful, engaged and contributes. He has learned to manage his time, work in group situations, solve complex problems and recognize the importance of a strong work ethic, persistence, and intellectual integrity. Matthew understands computer programming and can develop in the JavaScript, HTML, CSS and Python Programming languages.

When I think of Matthew, I think of a creative, hardworking, focused, analytical computer programmer and student that is driven to succeed. I would recommend Matthew to any higher education program or potential job opportunity with confidence. He has made me proud and I am sure will continue to do so as he grows in his future educational endeavors and beyond.

Please feel free to contact me should you have any questions regarding Matthew's character or past academic work. Thank you for your time and attention.

Sincerely,

A handwritten signature in cursive script that reads "Eric Nelson".
